

**SUNNY CALIFORNIA.** Sure it is. A picturesquely beautiful view of famous Mt. Tamalpais overlooking San Francisco Bay, wrapped in a white mantle just after the record snowfall of January 30, the heaviest in forty years. All is green and summery in the valley, while just a mile or so up the slope it is real winter. The popular cog railway that ascends the mountain (you can distinguish its course at the left) was for the first time completely blocked by drifts.

**Right — SCHOONER ASHORE!** The four-masted schooner Bessie A. White, of Passbury, Nova Scotia, bound for Newport News with a cargo of 900 tons of coal, goes ashore off Smith's Point, Long Island, and is abandoned after its crew is rescued by members of the Fire Island life saving station.

**AIN'T WE GOT FUN?** A quartet of pneumonia-defying maids of Springfield, Mass., attired in the scantiest of summer beach costumes, shock their home town folk by frolicking amidst the great cakes of ice on the shores of a local millpond. John Farnood.

**OUR NEW MINISTER TO HUNGARY.** Judge Theodore Brentano, noted jurist, who has served for more than thirty years on the bench of the Superior Court of Cook County, Illinois, and whose appointment by President Harding as United States Minister to Hungary has been accepted by that country.

**Left — OUR NEW POSTMASTER GENERAL.** Will Hays' probable successor as mail generalissimo, Colonel Hubert Work of Pueblo, Colorado, a doctor of long standing, who served in the Medical Corps during the war — has recently been carrying much of the responsibility of the Post Office Department as First Assistant to Hays.

**Right — DIPLOMACY ON SKIS.** Mr. Ira Nelson Morris, United States Minister to Sweden, and Mrs. Morris out for their daily hike somewhere in northern Sweden. They but recently returned to Sweden after a brief visit to this country. Mr. Morris has represented the United States in Sweden since his appointment in 1914 and his family have had ample opportunity to become thoroughly acquainted with the winter sports of that northland country.

## Snow White and Rosy Red

Framed by the rosy curve of her lovely lips, her smile reveals the flashing white of perfect teeth. Her beauty blooms triumphant over Time because she knows the secret of a healthy mouth. Pyorrhea, which attacks youth's radiance as a grub destroys the budding rose, has passed her by. Do you face your telltale mirror as fearlessly as she? Four out of every five people who pass the fortieth milestone have Pyorrhea. Thousands younger are not immune. Its danger signal is tender, bleeding gums. Quickly its deadly work is done, unless you halt it in its course. The gums recede from the teeth. Germs attack the roots, seep through the system. Sickness follows, the teeth decay, loosen, drop out or must be pulled. You can stop Pyorrhea abruptly in its course of havoc. At the first sign of warning, see your dentist for treatment. Then go to your druggist, buy a tube of Forhan's For the Gums, and use it regularly. Forhan's For the Gums is the formula of R. J. Forhan, D. D. S. It will prevent Pyorrhea—or check its progress, if used in time and used consistently. Forhan's is a pleasant dentifrice that leaves the teeth white and clean, keeps the gums pink, firm and healthy.

**Brush Your Teeth With Forhan's — How to Use It**  
Use it twice daily, year in and year out. Wet your brush in cold water, place a half-inch of the refreshing, healing paste on it, then brush your teeth up and down. Use a rolling motion to clean the crevices. Brush the grinding and back surfaces of the teeth. Massage your gums with your Forhan-coated brush gently at first until the gums harden, then more vigorously. If the gums are very tender, massage with the finger, instead of the brush. If gum-shrinkage has already set in, use Forhan's according to directions, and consult a dentist immediately for special treatment. 35c and 60c, in the U. S. and Canada. At all druggists.
